

# Non-Profit cuts Technology Costs by 20% with ComTec

“  
We value partnerships like ComTec. They took the time to understand our organization. The results speak for themselves. ”

Roy Leitstein  
CEO  
Legacy Treatment Services

“  
Companies like Legacy are one of niche fits for us. They are growing and a partnership with a company large enough to serve their needs but small enough to hand hold issues is critical to their success. ”

Mike Vertolli  
President and CEO  
ComTec Systems

## About Legacy Treatment Services

Legacy Treatment Services is 80 location non-profit servicing both children and adults across New Jersey who need support through wellness and recovery. Legacy works in the following areas of care: crisis intervention, outpatient & addiction treatment, developmental & intellectual disabilities, out-of-home care for children & youth, residential care for adults, prevention services, and anxiety & depression treatments.

## Key Problems Identified

Legacy was growing and needed a single provider that could consult on best practices and ultimately help convert to a more efficient billing platform as well as provide better services. They needed to have all telecommunications services optimized for cost savings.

## Key Solutions

ComTec analyzed hundreds of lines and was able to use analytics from their Consulting division to find savings. That combined with ComTec Cloud technology services turned out to be a perfect combination of savings and optimization.

## Key Components

- Consolidated billing from ComTec Consulting
- New Internet with faster speeds
- Consolidated POTs lines for all locations
- Cost savings of 20%

## Final Benefits

Legacy Treatment Services now has a direct relationship with a company that cares about their mission and can help fill their voids as a technology partner.
